**Subject:** ATSDR/Ohio/USEPA-R5 call to discuss 4/18/2013 E. Liverpool OH public meeting

As you know, preliminary results of a study ("An Epidemiologic Health Study of Manganese Exposure in Adult Residents of East Liverpool, Ohio") are planned for presentation at an April 18, 2013 East Liverpool OH public meeting.

**Please let me know when you're available/not available for a conference call during the weeks of March 11 or March 18, 2013.** The purpose of the call is to discuss (and hopefully align) ATSDR, Ohio and USEPA perspectives on study results, results communication, logistical issues, etc. well in advance of the public meeting.

thanks, George B.
